

10/20/14

FTDX1200 Software Update and Version Identification

The latest versions are listed below with the release dates.

- MAIN Software Version **01-10** (10/20/14)
- DSP Software Version **05-47** (09/04/14)
- TFT Software Version **01-03** (10/16/13)

*If you already have MAIN: Ver. **01-10**, EDSP: Ver. **05-47** and TFT: Ver. **01-03** software versions, it is not necessary to update the FTDX1200 again.

There are four different Software installations. Each one must be followed carefully. Installing the wrong type software may cause difficulties. Check your radio before installing software to be sure which updates are needed.

If multiple software installations are required the **MAIN** software should be installed first, as it is the only one that requires a press and hold in the [FAST] and [LOCK] keys while turning the radio back on. This resets the radio and locks in the new software.

Before installing new firmware, please verify your current version firmware with the following procedure:

How to Confirm the Firmware Version

Press and hold the [POWER] key to turn on the transceiver, while pressing and holding the [SCOPE] key, [GEN] key, [50] key, and [ENT] key on the transceiver's main panel. The versions of each firmware will be displayed on the TFT screen.

(This image & version is for illustration only)

Download the FTDX1200 data and [**FTDX1200_Update_OCT20.zip**] from the following website:
<http://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=102&encProdID=9D00B8E5727EF1E6778041A8B0133A22&DivisionID=65&isArchived=0>

Please read the FTDX1200 Firmware Upgrade Manual before proceeding!

Main: Ver. 1.10 (10/20/14)

- Corrected the CAT function with a change of MENU#177.
- Corrected MENU set shortcut [C.S] button when finished without changing it, corrects to return to the original frequency.

DSP Ver. 0547 (9/04/14)

- The CW keying band width spectrum is improved.

TFT: Ver. 1.03 (10/16/13)

- Enables saving the full screen display of the band scope function to memory.

We hope this new firmware will increase your enjoyment of your FTDX1200. Thank you for choosing Yaesu radios. If you have any problems or questions, please contact Yaesu, Amateur Tech Support amateurtech@yaesu.com.
